that we were in danger of not acquiring the services of [redacted] since we had not been able to focus on a specific position for him. It is clear that no appropriate slot actually exists, but it was decided that a position as SEI case officer might be an effective talking point. It was agreed that Dr. Scoville would call Mr. Taylor to discuss this matter.

2. Comment on Changes in Language Development Award Program: Dr. Scoville reminded [redacted] that DD/R comment on this matter is due in Mr. Kirkpatrick's office by close of business, 26 April. There was a short discussion of the content these comments should contain.

3. Physical Move of O/DDR: Earlier in the week it had appeared that the office of the DD/R would eventually move to the seventh floor. After a visit from Col. White, it appears that the proposed space on the seventh floor would be so poorly arranged as to negate the values of seventh floor residence in general. It now appears that we may eventually move to the sixth floor, close to the Office of Special Projects. Nothing, however, is firm.
